## PROJECT DEVELOPMENT EXPERIENCE

### **Undergraduate Capstone Project**

Sept 2018 – May 2019

The Department of Electrical and Computer Engineering  
North South University (NSU), Dhaka, Bangladesh  
Project Name: **Smart Gardener.**

- A robot capable of caring for the garden, scaring away pests and allowing the user to view the garden from anywhere around the world.
- The robot moves according to the user-defined schedule.
- An Android application was used to overcome the hurdles of non-technical users. The application allows the user to view each plant's information, schedule, and the garden. The robot can check the soil's pH level and verify if a plant requires water. The robot scares away pests at a user-defined time. Furthermore, the robot checks the weather for rain probability.
- **Platform:** Microcontroller and Android.
